The end result is a consistent ‘Grange’ wine that is built for long bottle maturation & is exceptional in every sense.

One hundred and fifty years of tradition are an important legacy, a wealth of experience and knowledge, stories and values that we want to maintain and spread through our wine. Our vineyards are located in the Val d'Illasi, where the calcareous soil of Valpolicella that meets the volcanic soil of Soave allows us to produce both types of wine. The soils, thanks to the different microclimates, produce grapes that best enhance the wines in their typicality and allow us to experiment with different varieties of old native vines.
